

# Origami Organs: The Hand

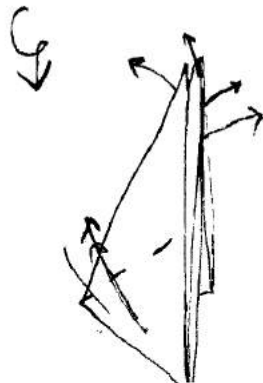

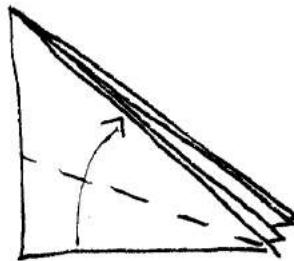

Fold a waterbomb base.

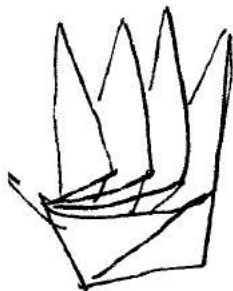

1d. Fold all flaps to the right.

2. Fold all layers (that are the edges of the square) onto the longest edge of the triangle, bisecting the acute angled corner. Turn over.

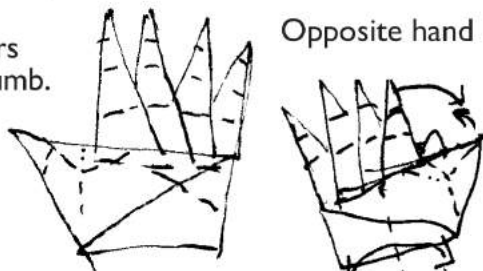

3. Spread the fingertips, and the thumb will rise.

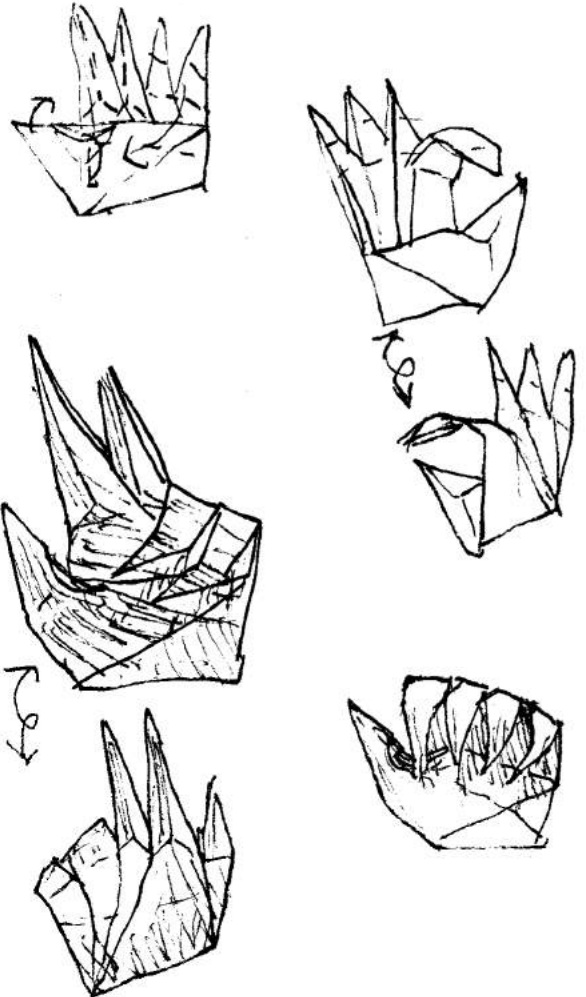

4. Press flat.

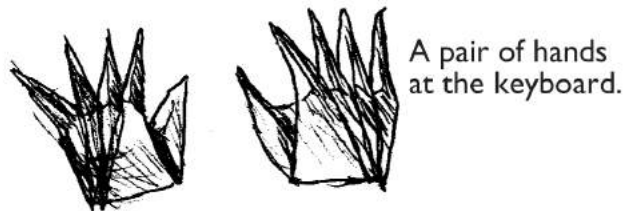

5. Bend the fingers and make the thumb.

Example hand positions.

Examine your own hands.
